*Project Description:* Applicant proposes to install a storm sewer system as part of rehabilitating Hicks Street. The storm sewer system will discharge to surface with rock riprap and then through a vegetated swale to the Keuka Outlet. A portion of this work requires grading and planting of vegetation within the regulated 100-foot adjacent area of State Freshwater Wetland PY-1 (Class I). Erosion and sediment controls will be used to minimize potential impacts to the wetland.

*Availability of Application Documents:* Filed application documents, and Department draft permits where applicable, are available for inspection during normal business hours at the address of the contact person.

To ensure timely service at the time of inspection, it is recommended that an appointment be made with the contact person.

*State Environmental Quality Review (SEQR) Determination*
