

Alphabetical Word Lists

FOR CALLIGRAPHY PRACTICE

Welcome!

Hey there letter lover! Thanks for downloading this ebook of practice fun.

I created it because its important that when you practice calligraphy, you're writing full words—it allows you to focus not only on the letterforms, but on *spacing*, which, by the way, is just as important as the letters! Unfortunately quotes and fancy prose don't really let you practice your majuscules as much as you need to, and that's where alphabetical lists come in. I've compiled a few here for you with as much variety in the letters as possible for maximum effect. Hope it'll inspire some great practice!

Tag me on Instagram (@idrawletters) if you post!

I'd love to see what you've done.

Much love + delight,
