## BARBARIAN FUR BIKER VESTS

Modelled after the fur vests worn by outlaw bikers of the 60s and 70s—which were often worn over their leather or blue jean jackets—these are the only fur biker vests made on the planet.

Back armor and a distressed leather inner lining will help protect you in case of a spill. Specialized pockets come in handy for bikers and all adventurers.

Clients have the option for a cloth lining with a custom or stock image on it.

They are reversible with reversible zippers, so you can rock the fur or the distressed leather on the outside.

The fur is *faux fur* (fake, pronounced: "fow" fur).

#### Cool Background Story

This is based on a fur vest worn by one of the porn actors in the X-rated underground 80's cult classic *Scooter Trash*--which included porn stars Ron Jeremy and Farah Fawcet look-alike Rhonda Jo Petty--and was acted and directed by a NJ outlaw biker club (a 1%er club). Biker magazine pinup girls also acted in it..

**COLOR AND FUR VARIATIONS GALORE**

We can make all our leather and suede in most standard colors.

We can also change the fur of a Barbarian vest

Some swatches of a few popular colors.

Our faux fur swatches

Available suede swatches

### PLEASE NOTE

The Apocalypse Jacket & Vest, and the Barbarian Fur Biker Vest Collection (all three of our fur vests) do not have product pages yet but will very soon.

Below is a list of our Biker Dope-brand items that already have product pages on our store, including our dopest past products:

The Cafe Racer  
The Western Rider  
Rockstar Riding Pants  
The Lone Wolf Jacket  
The Classic Riding Shirt:

**FREEGLOVES™**

Freegloves are an original, innovative glove design for bikers that does not exist elsewhere.

The tips of the gloves can be pulled off the fingers while remaining attached to the glove for full use of the fingers.

This is a significant innovation for bikers as it allows for use of the fingers without having to take one's gloves off.

This is not only practical but riders can now safely do things that they would otherwise be unable to do without taking their gloves off, which may not be safe or practical in many scenarios.

All Freegloves are quality, well-made gloves and are well worth the price even without the innovative feature.

### SALES CREW DISCOUNT CODE INFO

After the product pages are completed soon, the best practice is to ask the client to order from bikerdope.com then and there (usually on their mobile phone), and tell them to input your personalized Discount code.

If a product doesn't have a product page yet on bikerdope.com please email [dopemaster@gmail.com](mailto:dopemaster@gmail.com) with: Your name, the client's name, and the specs (item, colors, measurements etc). We'll then email them a custom order link.

Please note this Discount Code (which starts with your first name and ends in BIKERDOPE) cannot be used with other products on the store. It will only work with Biker Dope-brand items (<https://www.bikerdope.com/collections/biker-dope-apparel>)

When making a sale, give your customer your personalized Discount Code. Your sales will be tracked this way and your customer will get \$50 off each Biker Dope-brand product when they enter your Discount Code during checkout:

## CLIENT MEASUREMENTS—OUR SECRET WEAPON

Of course we can sell existing stock we have. But for orders that will be made and shipped, **the customizability of our apparel is our secret weapon** that lets us go toe-to-toe with established brands who have limited sizing.

Use it.

**Take your client's measurements when you're with them.** Looking amazing in our swag won't only make 'em feel awesome, but is your best calling card for more organic sales.

Other than being a brand ambassador, the main way a crew member "earns their keep" is by taking client measurements. Your clients will love you for making them look great and feel good about themselves.

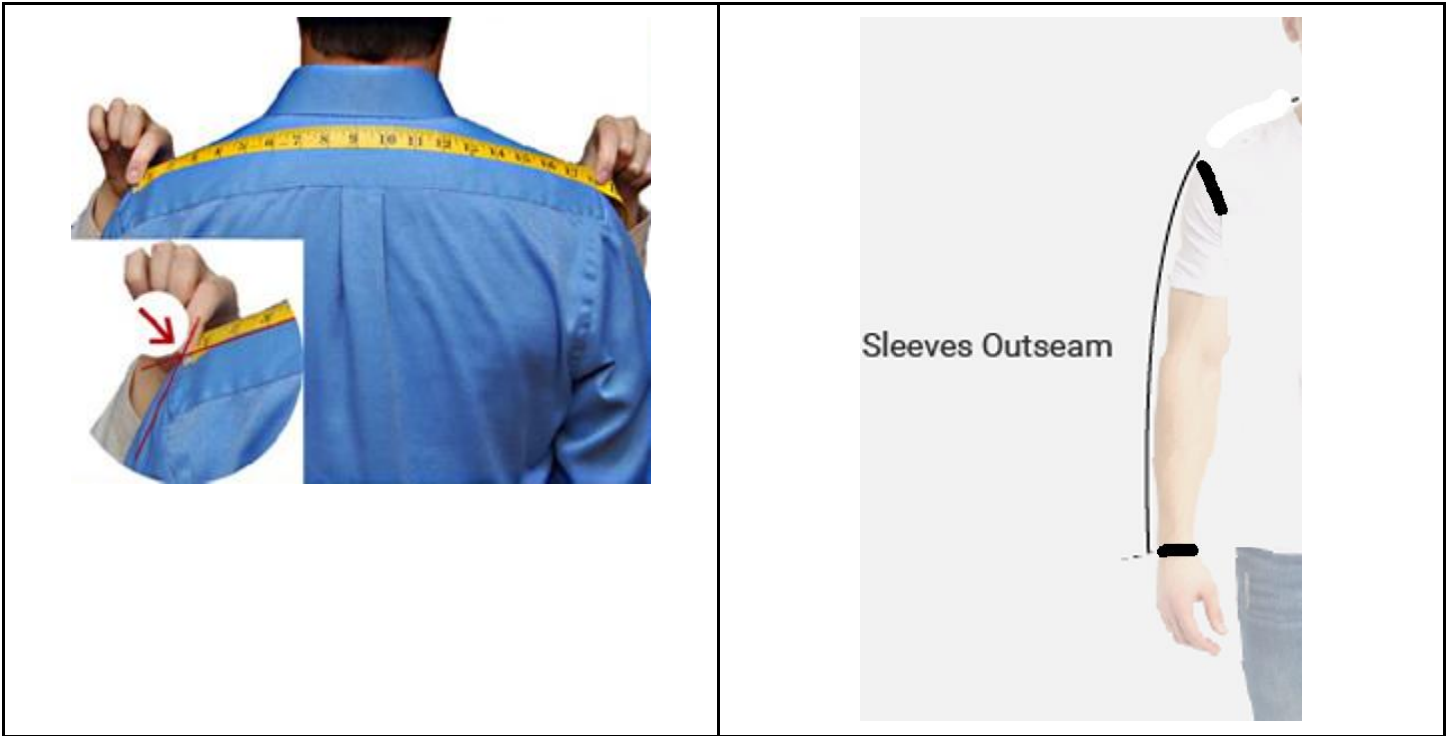

## JACKET MEASUREMENTS

**1. The most important measurement is asking the client's height and weight.** Even without measurements a decent-fitting jacket can be made from a person's height and weight.

2. Then take these four measurements with your measuring tape.

CHEST	WAIST
 <p><b>2 Measure your chest or bust.</b> Ask a friend to help you! This part is hard to do by yourself. Lift your arms up to the side and have your friend wrap the measuring tape under your armpits. Lower it until the tape is wrapped around the widest part of your chest. For women, wrap the tape around your bust, or the fullest part of your chest.<sup>[2]</sup></p>	 <p><b>3 Find the width of your natural waist.</b> Pinpoint the natural crease of your waist by bending to one side. This crease will be higher than where you normally wear your pants — above your belly button, but typically just below your ribcage. Keep the tape measure parallel to the floor and measure all the way around your torso where this crease formed.<sup>[5]</sup></p>
SHOULDERS	SLEEVE

### PANT MEASUREMENTS

1. This is easy. Usually, clients know their pant waist and length size. So **just ask them**.
2. If they're unsure, take hip and pant length measurements::
