

OREGON'S \$9.7 BILLION RESTAURANT ECONOMY IS AT RISK¹

Over 75% of Oregon's 10,456 eating and drinking locations are in danger of closing permanently without The RESTAURANTS Act²

THE RESTAURANTS ACT WOULD GENERATE \$2.4 BILLION ECONOMIC BENEFIT FOR OREGON³

- **Restaurants and drinking places account for 8.2% of all employment in Oregon.**⁴
- Food services and drinking places projected to contribute **20,600 new Oregonian jobs** from 2017 to 2027.⁵
- **The RESTAURANTS Act would galvanize Oregon's tourism industry**, encouraging travelers to eat in Oregon's establishments and spend money on lodging, other tourist attractions, and retail, generating **\$1.3 billion.**⁶
- The RESTAURANTS Act would provide **\$240 million in benefits** to countless other bakers, fishermen, butchers, and, of course, Oregon's **34,250 small farms.**⁷

WITHOUT HELP FOR INDEPENDENT RESTAURANTS, OREGON'S ECONOMY WILL SUFFER

- An estimated **76% of eateries are independently owned.**⁸
- Consumer spending across all restaurants has fallen 50% from February to April.⁹
- Independent restaurants rely far less on pickup and drive through service.¹⁰ **Fine and casual dining have declined 85% and 65% respectively**, while fast-food has only decreased 21%.¹¹ National chains like Domino's, Pizza Hut, Papa John's, Raising Cane's, and Taco Bell have hired during this time.¹²
- Nearly **65% of the revenue** from local independent restaurants **recirculates in the local economy** compared to about 30% for chain restaurants.¹³

THE RESTAURANTS ACT WOULD HELP PUT 73,900 OREGONIANS BACK TO WORK¹⁴

- Since the beginning of March, the leisure and hospitality industry has accounted for **40% of all jobs lost in Oregon**.¹⁵
- Hiring back the **73,900** leisure and hospitality industry workers would save Oregon **\$558.7 million** in unemployment benefits and insurance taxes.¹⁶
- The RESTAURANTS Act would **reduce the national unemployment rate by an estimated 2.4%**, a result of saving the industry that has been hit hardest by job losses from the outset of this pandemic.¹⁷

CONGRESS CAN SAVE 16 MILLION JOBS NATIONWIDE AND GENERATE UP TO \$271 BILLION IN TWO YEARS BY PASSING THE RESTAURANTS ACT¹⁸

- Independent restaurants and bars **directly employ 11 million workers nationwide**. Additionally, **5 million more work in the industry's vast supply chains** and rely on eating and drinking places to sustain their livelihoods.¹⁹ Without direct aid, all of these jobs are in danger of vanishing permanently.
- Restaurants have become tourist destinations domestically and internationally. One study found that **72% of all travelers choose their destination based on food and drink offering**.²⁰ Tourists also spend money on travel, housing, and retail.
- The **loss of economic activity** due to culinary travelers is estimated to be up to **\$141 billion**.²¹
- Restaurants are hubs of minority employment and advancement. **Sixty percent of all chefs nationwide are minorities**. Minorities also make up 53% of bussers, runners, baristas, prep-cooks, dishwashers and kitchen porters. Restaurants also employ more minority employee-managers than any other industry.²²
- **Over half of all restaurant workers are women**, and restaurants employ over one million single mothers.²³
- Restaurants generate middle class jobs at a rate **three times faster than the economy**.²⁴
